New York, NY 10011
646-665-6562

****Pick-up escort required**

Bowel Preparation for Colonoscopy with Golytely

A colonoscopy is a routine, generally safe, pain-free procedure used to examine the colon. These are the steps that you must take before the procedure to ensure the highest level of safety and effectiveness.

1. Make arrangements to have someone drive you home after the procedure. Colonoscopy involves sedation, and you will not be allowed to leave the facility unaccompanied.
2. Follow your physician's instructions regarding medicines to avoid and diet to follow before your procedure.
3. Your body loses significant amounts of fluid during bowel preparation. In order to prevent dehydration, it is important to supplement that fluid loss with clear liquids throughout the day.

COLONOSCOPY PREPARATION WITH Golytely

For this preparation, you will need:

1. Four Dulcolax tablets
2. Golytely

THE DAY BEFORE YOUR COLONOSCOPY

On the day before your colonoscopy, start hydrating by consuming **ONLY** clear liquids and stop eating all solids foods and dairy. Liquids must **NOT** be red or purple. **DO NOT** consume alcohol, juice pulp, milk, cream, soy or non-dairy creamer, or other liquids you **CAN NOT** see through.

*Examples of clear liquids include:

- | | |
|--|--|
| ✓ Water | ✓ Ginger ale, Lemon-lime soda |
| ✓ Strained fruit juice without the pulp | ✓ Lemonade |
| ✓ Tea without milk or creamer | ✓ Sports drinks (eg. Gatorade)(<u>not red or purple</u>) |
| ✓ Clear broth or bouillon | ✓ Plain Jell-O without fruit or toppings |
| ✓ Clear juices: such as apple or white grape juice | |

Do not have any solid or soft food. Milk or other dairy products are also not allowed.

The following is the schedule for using Golytely Oral Solution:

- Fill the plastic container containing the laxative powder (Golytely) with water, shake well until the powder is dissolved and put the container in the refrigerator.

Step 1:

Beginning at approximately 1:30pm Take 4 Dulcolax tablets with 8 oz of water. Swallow the tablets whole.

Step 2:

Beginning at approximately 6PM, Start drinking the laxative (Golytely) liquid. Drink one full glass every 15 minutes until it is gone. Try to drink one full glass at a time instead of sipping.

- If your Colonoscopy is scheduled for the morning, do not eat or drink anything after midnight. If your Colonoscopy is scheduled after 1:00pm, you may have a small quantity of clear liquids in the morning until 9:00am

Procedure & Recovery

Heading Home

1

Take your medications as directed by your doctor. For questions about bowel prep, consult your referring physician. After midnight before the procedure, avoid eating or drinking, except for medications with a sip of water or bowel prep if needed.

2

Please arrive 1 hour prior to your appointment time. Drop off/pick up location: Lenox Health Greenwich Village 200 W 13th Street New York, NY 10011. Parking information available on page 2

3

Upon entry you will receive an ID badge and be directed to the Endoscopy Suite on the 4th floor where you will fill-out paperwork and make a payment, if applicable.

4

Your healthcare team will review your medical history, medications, & prepare you for your procedure

Your physician & Anesthesiologist will explain the procedure and obtain your consent

5

You will then be escorted to the procedure room to begin your procedure

After the procedure, you will receive discharge instructions and the procedure report. You will be brought to the recovery suite

6

When you are ready to go home, you will be discharged & brought to the same entrance where you arrived

Before you go home, you will receive education & instructions

You will receive a follow-up phone call from one of the nurses within 72 hours.

Preparing for your upcoming visit

Information About Your Procedure*:

Estimated Procedure Time: between 30-60 minutes

1. After your registration and paperwork are complete, the nurse will start an IV, and speak to your anesthesiologist and gastroenterologist
2. The provider, MD, NP, or PA will explain this part of the procedure to you in detail and obtain your written consent.

The Cost of Your Procedure:

Understanding your co-pay/co-insurance

- Please reach out to your insurance company before your procedure to find out about your specific plan.
- Depending on your insurance, you may be responsible for a co-pay, deductible, co-insurance, or out-of-pocket expense.
