Bowel Preparation for Colonoscopy with Suprep Bowel Prep Kit

A colonoscopy is a routine, generally safe, pain-free procedure used to examine the colon. These are the steps that you must take before the procedure to ensure the highest level of safety and effectiveness.

1. Make arrangements to have someone drive you home after the procedure. Colonoscopy involves sedation, and you will not be allowed to leave the facility unaccompanied.
2. Follow your physician's instructions regarding medicines to avoid and diet to follow before your procedure.
3. Your body loses significant amounts of fluid during bowel preparation. In order to prevent dehydration, it is important to supplement that fluid loss with clear liquids throughout the day.

Please pick up the prep at your pharmacy within 10 days of receiving this paperwork

THE DAY BEFORE YOUR COLONOSCOPY

On the day before your colonoscopy, start hydrating by consuming **ONLY** clear liquids and stop eating all solids foods and dairy. Liquids must **NOT** be red or purple. **DO NOT** consume alcohol, juice pulp, milk, cream, soy or non-dairy creamer, or other liquids you **CAN NOT** see through.

*Examples of clear liquids include:

- ✓ Water
- ✓ Strained fruit juice without the pulp
- ✓ Tea without milk or creamer
- ✓ Clear broth or bouillon
- ✓ Clear juices: such as apple or white grape juice
- ✓ Ginger ale, Lemon-lime soda
- ✓ Lemonade
- ✓ Sports drinks (eg. Gatorade)(not red or purple)
- ✓ Plain Jell-O without fruit or toppings

The following is the schedule for using Suprep Bowel Prep Kit

Step 1:

At approximately 6:00 PM the day before your colonoscopy:

Pour one of the 6-ounce bottles of SUPREP liquid into the mixing container. Add cool drinking water to the 16-ounce line on the container and mix. Drink all the liquid in the container. Drink two additional 16-ounce containers of plain drinking water over the next hour.

Step 2: Beginning 5 hours before your scheduled appointment:

Pour the remaining 6-ounce bottle of SUPREP liquid into the mixing container. Add cool drinking water to the 16-ounce line on the container and mix. Drink all the liquid in the container. Drink two additional 16-ounce containers of water over the next hour

- After prep is completed, please **do not** take anything by mouth until after the colonoscopy is completed

*If you are on medications that thin your blood (other than aspirin) or if you take medications for diabetes, let your prescribing doctor know that you are having a colonoscopy and ask for instructions regarding this medication and procedure. *

If you are on weight-loss medications such as Wegovy, Ozempic, Zepbound, or Mounjaro, you must stop taking it 7 days before your procedure
